

# [ Liberty ]

**Liberty** For period properties and traditional furnishing styles, the Liberty cast iron column radiator is the perfect heat emitter. Its scrolled relief patterns and Victorian looks transform the Liberty from humble radiator to stunning reproduction centrepiece, making it unnecessary to hide or conceal the heating system. Where the period setting includes highly-prized panelling, the free-standing Liberty will avoid damage to the wall. Liberty is supplied in an attractive Umber grey primer finish which will complement most colour schemes, although it can also be painted.

**Specification**

Models available: 54 delivered fully assembled
